

Ali Gholami

Full Stack Developer | AI Engineer | Web Designer

Founder of Aliore Personal Brand

Professional Summary

Highly motivated Full Stack Developer and AI Engineer with a strong passion for building modern web applications, intelligent systems, and user-centered digital experiences. Currently completing a Technical Diploma in Computer Science while actively developing real-world projects involving full-stack development, artificial intelligence, automation, and modern web technologies. Focused on continuous learning, problem solving, and creating scalable solutions that combine software engineering, design, and AI innovation.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Responsive Design, UI/UX Development, SEO Fundamentals, Framer Motion

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization, SSR, Application Architecture, API Integration, Real-Time Applications

Databases: MongoDB, PostgreSQL, MySQL, Database Design, Data Modeling

Artificial Intelligence: Generative AI, Large Language Models (LLMs), Prompt Engineering, AI Agents, RAG Systems, AI Workflow Automation, OpenAI API Integration, Conversational AI, Knowledge Base Systems, AI-Powered Web Applications

DevOps & Tools: Git, GitHub, Docker, Linux, Vercel, CI/CD Fundamentals, Deployment & Hosting

Design: Web Design, UI Design, UX Principles, Brand-Oriented Design

Projects

- AI-Powered Applications – Built intelligent web applications integrating AI technologies, automation workflows, and conversational experiences.
- Full Stack Web Solutions – Developed responsive and scalable applications using modern frontend and backend technologies.
- Portfolio & Digital Experience Projects – Designed and implemented professional digital experiences with a focus on usability and performance.
- Personal Development Projects – Continuously creating and improving software projects to strengthen engineering and product development skills.

Education

Technical Diploma in Computer Science (Expected 2027)

Currently completing secondary technical education with a focus on software development, programming, and technology.
